

Potential Review Books for *Church Libraries*

If you would like your book considered for a review in *Church Libraries*, it must meet the following requirements:

- not a self-published book
- not a print-on-demand book
- not an e-book
- published in the current year
- not a reprint, revised edition, or retitled edition (these are listed as updates)
- fits our audience theologically (conservative, evangelical, noncharismatic)

We review books in most categories, with the following exceptions:

- poetry

We prefer that books are sent from the publishing house or a publicist contracted by the publishing house or author.
